

SITI NUR AZIZAH

Tangerang, ID | 081263576330 | [Portfolio](#) | sitinurazizahhh18@gmail.com | [Linkedin](#)

An Informatics Engineering graduate specializing in software engineering and system development, certified as a Junior Web Programmer (BNSP). Experienced in full-cycle web application projects at LLDIKTI Region II, covering system analysis, design, implementation, software testing, and deployment using Laravel and MySQL on cloud hosting. Skilled in developing clean, structured, and scalable web applications, and data visualization using Tableau. Adept at applying Agile–Kanban methodologies (Trello) for project management while maintaining clear and organized technical documentation. With a strong foundation in both frontend and backend development, I'm eager to contribute to building reliable, efficient, and secure digital solutions in a collaborative environment.

Work Experiences

PT. Garuda Indonesia (Persero) Tbk.

IT & Digital Transformation (Internship)

Nov 2025 – Present

- Assist the IT Project Manager by coordinating project meetings, including scheduling, documenting minutes, and tracking action items.
- Serve as a Quality Assurance tester by executing test scenarios for Garuda's web and mobile applications, identifying bugs, and reporting findings.
- Support collaboration with developers and the PM to ensure timely fixes and improvements, with current progress covering 2 meetings and 1 application tested.

University Of Lampung

Treasurer | Laboratory Assistant of Digital Engineering Laboratory (Contract)

Oct 2022 – Jul 2025

- Managed financial administration for 4 generations of laboratory assistants.
- Taught and assessed ± 100 students per semester in Digital Engineering, Digital Electronics, and Embedded Systems practicums.
- Assisted lecturers in preparing 3 practicum modules and evaluating ± 100 students to ensure effective delivery and assessment.

LLDIKTI Wilayah II

Software Engineer (Academic Research)

Jul 2024 – Mar 2025

- Developed a Laravel-based KIP Scholarship Management System for 166 universities, covering the end-to-end process
- Performed 2 testing methods (Blackbox & UAT) to ensure system quality, achieving 100% success in Blackbox testing and an 80% approval rate in User Acceptance Testing (UAT)
- Coordinated with LLDIKTI operators and 3 university operators during system implementation.
- Managed project tasks and monitored development progress using Trello to ensure timely completion.

Web Developer (Internship)

Feb 2024 – Jun 2024

- Designed and prototyped the redesigned website interface, focusing on usability and modern UI principles, resulting in a 25% improvement in user satisfaction or efficiency.
- Translated 10+ wireframes and prototypes into responsive front-end code using HTML, CSS, and JavaScript, enhancing user experience and reducing development time by 25%.
- Collaborated with the team to integrate design with functionality, ensuring consistency and user-friendly interaction for 2 projects and achieving measurable improvements in user satisfaction and workflow efficiency.

Education

University Of Lampung

Informatics Engineering, Bachelor Of Engineering, GPA 3.85/4.00 (Cum Laude).

Aug 2021 – Jul 2025

Google Career Certificate

Project Management

Oct 2025 – Present

Digital Skola

QA Engineer: Basic Automation & Testing

Nov 2025 – Present

Bangkit Academy led by Google, Goto, and Traveloka

Cloud Computing Cohort

Aug 2023 – Jan 2024

Organizational Experiences

Himpunan Mahasiswa Teknik Elektro (HIMATRO)

May 2022 – Dec 2023

Member Of Pengembangan Keteknikan

- Led the Publications, Decorations, and Documentation (PDD) team as Head Coordinator in Electrical Engineering in Action 2023, HIMATRO Unila's largest annual event, overseeing planning, budgeting, and media publication.
- Delivered presentations to 10+ high school students in Lampung during the regional-level EGOS 2023, representing HIMATRO Unila and promoting Electrical Engineering career awareness.
- Contributed as an Event Committee Member in the HIMATRO 2023 Anniversary, leading concept development, coordination with partners, and end-to-end event planning and documentation to ensure successful execution.

Portfolio

SIM KIP Kuliah LLDIKTI Wilayah II

Developed a web-based system to digitize the management of KIP Kuliah Merdeka, covering processes from student submission, verification, and disbursement. Implemented Kanban methodology for project management and Laravel framework for system development, with deployment on cloud hosting.
